"Resolved, That the St. Louis Baseball Association be suspended from the privi-leges under the national agreement for fail-ure to comply with the orders of this board,

and that it stand so suspended until it has complied with the said orders of the board in the case of the claim of the Wikesharre club for compensation for the release of Sutor Sellivan.

After disposing of the St. Louis-Wilkerbairs matter, the board took up the players protests. The contest between first faminoids and Youngstown for the possessiveline of Charles Knepper resulted in Knepper being awarded to the Indianapolis clab. Charlest Crate received his release from the New London club on his appeal for back sabary. Gas Klopf was released from the Relamond, V.a., club, and M. J. Kelly and Charles Gamnon from the Ottawa club. All these players showed that they had signed with their clubs for 1888 and were exempt under the reserve rule. The board refused to grant Billy Lush his release from the Rochester club.

It was developed during the day that all, with a few exceptions, of the New York players had received contracts calling for reductions in salary. Among those cut is Jack Warner, and as a result he may not sign with the clab.

At 8 o'check the board of directors went into executive session.

The board of directors was in session three hours, and at the close of the session Mr. Young gave out the following statement.

As the charges made against the St. Louis club are not only undisputed, but are admitted to be true by the representative of that club, it is generally expected that the St. Lears club will be expelled from the league at to-morrow's mostling.

home product window show during the week of the fall festivities. The recent window show of this character, though it window show of this character, though it had the weather and everything else against it, was such a success that both the merchants and manufacturers who were in it are anxious for more. The merchants say it has increased their trade in Kansas City-made goods and many of the manufacturers say it has brought to them as customers Kansas City merchants whom they never had before.

Both merchants and manufacturers agree that the Priests of Pallas week, when Kansas City is crowied with outside visitors, would be the time of all times to show to the whole Southwest what Kansas City is making. The suggestion meets with favor that as far as possible these window displays have people in them actually making the goods. This would attract much attention and the displays could otherwise be made so chaborate as to be one of the big features of Carnival week.

season at the Auditorium continued active yesterday, although good seats remain for both performances. The Ellis company opened in Cincinnati Monday night, where an engagement of three nights is being sung. Thursday night the company will sing in Louisville, Friday night in St. Louis, and Saturday afternoon and night in this city. As in other cities where the company has appeared, the public of Cincinnati has given the great company an ovation. Its coming to Kansas City should be one of the biggest musical events of years, for while Melba will not sing here, the organization will give two performances on a scale that is rarely attempted except at some great city where grand opera has a home.

TREATMENT THAT CURES.

pathy, Dr. Hunter St. John Cures People by Homeopathy.

There is a vast amount of medical advertising in the papers. The "ads" read somewhat affice, due in part to the fact that most of them tell of cures that have been effected by the respective medications. Common sense, however, can easily sift the chaff from the wheat, it seems unreasonable to imagine that a patent medicine which is recommended to cure anything and everything. But don't be deceived into purchasing such "stuff," for "stuff" it is, of the most dangerous kind, it is more apt to endanger vour health than benefit it.

When you are not feeling well, or when you suffer from any malady, write to well known and reputable physicians like Dr. G. M. Bramaman, chief of staff of the Bramamar Medical Institute, and the Dr. Hunter St. John Institute.
